Course Credits

You can now see a list of Course Credits in a table format. If you have transfer credits coming in from more than one institution, you will see a model Nbr table for each institution.

Each transfer Model will contain information on where the credit is coming from (Source Institution), how it was entered into the system (Credit Source Type), and the Career/Program/Plan under which the credit was assigned.

Course Credits							
Model Nbr	1	Posted					
Institution	University at Buffalo	Credit Source Type	Manual

Fall 2005	MAT 109	4.00	B	Posted	MTH 115LLB	4.000	TB

The Transfer Term column displays the Term your transfer credit was posted.

The subject and number of the Incoming Course, including the Units Taken and Grade Input are displayed.

Every transfer credit will have an evaluated UB Equivalent Course assigned to it. This may appear as a specific course (e.g. MTH 115) or as a generic placeholder credit (e.g. TR99TR).

The Units and Grade fields display what UB has accepted based on grading and articulation policy.

For transfer credit a 'T' or 'M' will precede the actual grade and is used to identify it as transfer credit.

If your Status is listed as either 'Completed' or 'Submitted', notify your academic advisor to ensure that it is properly posted to your record.

Test Credits

You will now see your Test Credits displayed in a table format. If you have Text Credits from more than one source/type, you will see a Model Nbr table for each.

The Test Credits report displays the Transfer Term and Test ID which indicates the source of the Test Credit.
